DETAILED ACTION

Remark

1. This communication is responsive to the amendment and response dated 4/25/2006. Claims 1, 3-11, 14, 16-26, and 28-32, 34-35, 39, and 41-42 are presented for examination.

Allowable Subject Matter

1. Claims 1, 3-11, 14, 16-26, and 28-32, 34-35, 39, and 41-42, after further reconsideration and search, are allowed over the prior art.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The Applicants, by amendments, have incorporated allowable subject matters into the previously rejected base, namely: editing a media object that comprises an image by enabling a user to selectively edit the representation of the media object by applying a modification to the representation by cropping the representation of the media object and then producing metadata that define the modification, wherein the metadata includes a size and a position of a crop outline on the representation of the image to indicate limits of a cropped image (as recited in claims 1, 14 in conjunction with other

Art Unit: 2628

limitations in the claims). Independent claims 25 and 31 are allowed over the prior art for reasons indicated in the previous office action.

Christopoulos (US 6961754) discloses a method of manipulating multimedia data by accessing a database containing the description of media object and allowing an enduser to modify the media object by cropping, resizing and rotating the image and selecting a particular ROI from the image as a whole prior to making that object available to another end-user. See Christopoulos' col. 7, line 45 to col. 8, line 8. However, Christopoulos fails to teach the production of metadata that define the modification of a media object, wherein the metadata includes a size and a position of a crop outline on the representation of the image to indicate limits of a cropped image; and then storing the metadata that define the modification of the media object, without modifying the data that define the media object. In addition, Christopulos fails to teach a method for lossless editing of a media object that enables representation, user modification, rendering and storing of the media object, wherein the method further comprises subsequently accessing the media object and metadata; rendering the representation of the media object as defined by the metadata; enabling the user to further modify the first modification of the representation to produce a second modification and producing metadata that define the second modification; and storing the metadata that now define the second modification of the media object, without modifying the data that define the media object (as recited in claims 25 and 31). Accordingly, the limitations of claims 1, 3-11, 14, 16-26, and 28-32, 34-35, 39, and 41-42 of the instant application are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sajous Wesner whose telephone number is 571-272-7791. The examiner can normally be reached on Mondays thru Fridays between 10:30 and 7:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kee Tung can be reached on 571-272-7794. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
